

EXHIBIT CR

Cloud locations

Google Cloud has added a new region: Santiago. Our private, software-defined network provides fast and reliable connections to users around the world.

REGIONS NETWORK (#NETWORK)
(#REGIONS)

*Exception: region has 4 zones.

Products available by location

Deploy resources in specific zones, regions and multi-regions.

AMERICAS EUROPE (#EUROPE) ASIA PACIFIC (#ASIA-PACIFIC) MULTI-REGION (#MULTI-REGION)
(#AMERICAS)

Products	 Oregon (us-west1) <u>Low carbon</u> (/sustainability/region-carbon)	Los Angeles (us-west2)	 Salt Lake City (us-west3)
<p>COMPUTE</p> <p>Compute Engine (https://cloud.google.com/compute)⁵ (#regions-notes)</p> <p>App Engine (https://cloud.google.com/appengine)</p> <p>Google Kubernetes Engine (https://cloud.google.com/kubernetes-engine)</p> <p>5</p>			

At a minimum, all regions will offer the following products at launch: Compute Engine, Google Kubernetes Engine, Cloud Storage, Persistent Disk, CloudSQL, Virtual Private Cloud, Key Management System, Cloud Identity and Secret manager. This minimum product group will continue to evolve based on customer demand. Typically, within three months of a new region launch, additional products are made available based on customer demand.

The above product availability is updated on a monthly basis. To request additional products for a specific location or to discuss product availability, please **contact us (/contact)**.

1. Service is offered with a global location option in addition to region locations denoted.
2. Service is offered with multi-region location options in addition to region locations denoted. Check multi-region tab for details.
3. Service is offered with varying functionality by region.
4. Service is the next generation of Datastore. Available in either Datastore mode or Native mode.
5. Service provides a data location commitment in the Service Specific Terms for available regions/multi-regions.

Global products

The following products are available with no dependence on location.

NETWORKING

Cloud Load Balancing ([/load-balancing](#))

Cloud CDN ([/cdn](#))

Cloud Interconnect ([/network-connectivity/docs/interconnect](#))
